

# Montgomery 300

MW18

01/11/2021 [5]

An easy 300 without too much climbing. Note that Montgomery doesn't have 24 control facilities, so choose your start time with care – or better still, use the eBrevet 

For a successful validation, you must:

- enter at **www.delphcyclist.info/MontyPerm.html** (don't worry about the ride date at this stage)
- register your ride date by texting **07931 911324** or emailing **mike@PeakAudax.co.uk** before you start
- visit all the controls listed below within the time limits - note that this is a non-mandatory route
- establish your "proof of passage" by
  - downloading the eBrevet - see **www.delphcyclist.info/eBrevet.html**
  - or recording a GPS track (must be .GPX format) showing you visited each Control Location
  - or collecting till receipts or ATM slips from anywhere at the Control Location
- completing all the details on your Brevet Card (name, address, ride date, control locations and times plus your signature) and returning to me within 14 days of your ride

**Controls:** The ride works best using the E-Brevet app or a GPX track to authenticate your ride. The route is advisory, but you should ensure that you pass within 1/2km of the locations below (indicated by Grid Reference and what3words.com). If you haven't access to the app or GPX you may still collect receipts from the various suggested locations.

**eBrevet:** Ride Code **MW18** (see www.DelphCyclist.info/eBrevet.html for customisation instructions to reverse the direction, start at any control, or start anywhere between controls).
